I haven't been sewing lately and so I thought of using my pile of scrap fabrics :). I wouldn't say this was the fastest project nor the easiest...I've learned a few lessons here and there are a few things need to be adjusted...and I forgot to put a wrist strap and not to mention my contrasting ugly thread! oops.. :). But this sure was a fun one As blogged on Liaspace

Materials

scrap cotton

Step 1 — For full instruction please go to
