

# Mini tissue envelopes

By: davee09

<http://www.burdastyle.com/techniques/mini-tissue-envelopes>

---

i know there is already a tissue envelope on here but i found this easier to make!!! enjoy!!! .

---

## Step 1 — Get ur materials!!

With right sides facing, sew the two fabrics together across the shorter ends using a 1cm seam allowance. Press seams open and turn right side out. With the outer fabric facing up, press fabrics flat, with 5mm of the lining fabric showing on each side of outer fabric.

---

## Step 2 — turn n drop ;)

Turn the remaining raw edges of the fabric in 1cm and press. With inside facing up and bring the two sides into the centre of fabric and press flat.

---

## Step 3 — time to actually sew!!!! XD

Topstitch pressed ends together 5mm in from outer edge. Remove tissues from plastic pack and place inside holder.
