

Screen Printing at Home

By: marina_glory

<http://www.burdastyle.com/techniques/screen-printing-at-home>

Here is an inexpensive way to screen print at home! Instead of spending a lot of money on a silk-screening kit or photo emulsion supplies, here is a fun way to try out screen-printing. This can work with hand-drawn or printed designs. It's fun and easy to do! I think the hardest part was being patient while the Mod Podge and ink dried ;) Enjoy! blogged at <http://purpleadjectives.blogspot.com/>

Step 1 — Screen printing at home for less!

Please watch the video for the entire tutorial.
