Spice up a bland item! See my skirt that I made with this technique <a href = "http://starsforstreetlights.blogspot.com/2009/08/cause-my-eyelashes-catch-my-sweat.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"> here, and the dress I made <a href = "http://starsforstreetlights.blogspot.com/2009/08/fendi-inspired-flower-dress.html"</a>

#### Step 1

First, you need a skirt to glue/sew the flowers to. I got a high-waisted skirt from Goodwill for 2\$. It does not really matter what the skirt is made of as long as it looks good with the flowers you made.

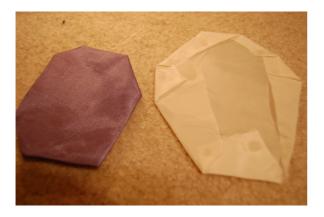

#### Flowers for dress/skirt

#### Step 2 — Making flowers

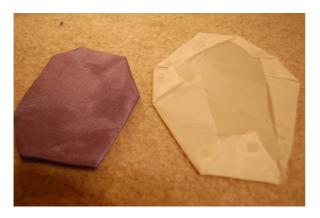

Here is how to make the flowers. 1.Cut squares of fabric. 2. Iron the corners in until you get a circle-like shape.

#### Step 3

Do the same for the other color of fabric for your flower layers. You do not need 2 layers, but I think it looks nicer with 2. Donâ" t worry about gluing the corners down, the sewing machine will stabilize them later.

### Step 4

Find similarly shaped layers and layer them on top of one another.

#### Step 5

Cut strips of another fabric to make the swirl on the fabric. Sew the strips onto the 2 layers of fabric starting from the middle and moving out.

#### Step 6

Here is what the swirl looked like when I was doing it.

#### Step 7

After you have enough flowers to cover the skirt or dress, take the fabric glue to the back of the flower and place it on the skirt. If you have 2 different colors, I would advise planning a design.

### Step 8

Make sure you have enough glue on the flowers to hold them into place. Pin them in place as you go. Wait for the glue to dry.
