

Making Trousers

By: Angela Kane

<http://www.burdastyle.com/techniques/making-trousers>

Follow this video as I make up my Wide Legged, Front Pleated Trouser – Pattern No 931. The method will apply to most patterns for trousers. If the wide leg style is too bold, try it in a fabric with some drape such as wool crepe. To make the pattern easy for beginners, rather than a fly front, I have opted for a zip in the back seam, 50's slacks style which is also more flattering. You may like to purchase this pattern in sizes 6-22 from my website angelakane.com Alternatively, become a member and have access to all my patterns and videos.
