Hi everyone! I want to share a tutorial with you that I just posted on my blog the curious kiwi – <http://thecuriouskiwi.wordpress.com/> (I'm sorry but everything I have tried to make a link doesn't work, you will have to copy and paste the address into your browsers address bar) I use Adobe Photoshop to transform pattern line drawings with photographs of my fabrics to get a little taste of the end result. It's not as hard as it looks and for those of you who don't own Photoshop this tutorial explains how to get the same results with a free program called Gimp

---

## Step 1 — Step 1

Go here:

<http://thecuriouskiwi.wordpress.com/2011/03/22/tutorial-visualising-fabric-on-patterns-part-two-gimp/> for the link :) (I'm sorry but everything I have tried to make a link doesn't work, you will have to copy and paste the address into your browsers address bar)
