New shoes in a few minutes. For all shoes with laces

Step 1 — step 1

find some shoes that can use a makeover

Step 2 — step 2

remove the laces

Step 3 — step 3

Choose a nice ribbon. The ribbon that I used is to big. The ribbon must belonger than the lace.

Step 4 — step 4

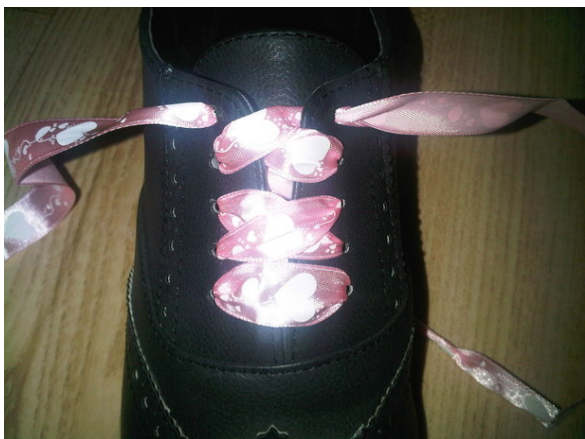

grab the tape

Step 5 — step 5

put the tape on the end of the laces. it's now easier to put the ribbon in the shoe.

Step 6 — step 6

next step put the ribbon in the shoe. it's very easy. but use a ribbon that is not so big as mine :). good luck
