---

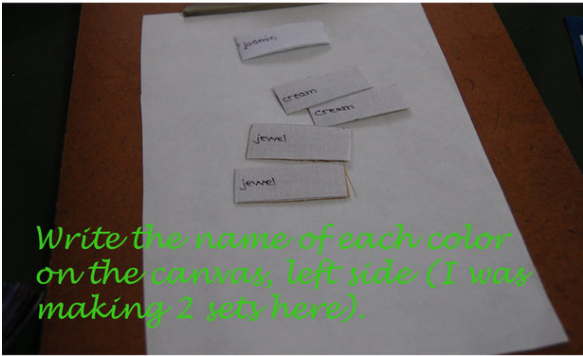

It's so useful when I have to look for the same color of fabric, matching trims or matching threads! Here's how you can make one too!

---

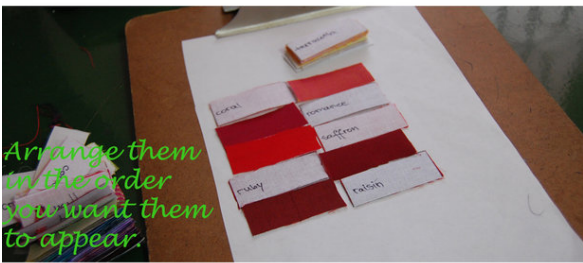

**Step 1 — All steps in one:)**

*Cut interface rectangles 2/5 cms each; fuse them with the chosen fabrics; let the fused pieces cool, then cut them out.*

*Write the name of each color on the canvas, left side (I was making 2 sets here).*

*Arrange them in the order you want them to appear.*

*All swatches ready to be punched!*

*Make 2 plastic covers, same dimensions.*

... read description on each picture! Also on my blog:
