---

Member Kasia (a.k.a. postmodest) shows us super easy ways to embellish a garment using Dritz products. Check out the instructions below, please see her final garment here:<http://www.burdastyle.com/projects/kasias-lovely-blouse>

---

## Step 1 — Draw On Fabric with the Heat Transfer Pencil

Kasia thinks that the Dritz® Heat Transfer Pencil is one of the most fancy items in her sewing box! Draw what you want on a piece of paper and use a hot iron to transfer it onto your fabric! Easy, right? You can do it either on the right or wrong side of the fabric, as you prefer. The marks wash out easily.

---

## Step 2 — Add Beads To Your Fabric Using Liquid Stitch

After drawing your design on to your fabric, you can use the Liquid Stitch by Dritz® to accent it with beautiful beads. Kasia used black and silver beads to embellish her garment. Liquid Stitch is really really strong, so she decided to use it for this application. The liquid stitch becomes invisible after awhile and, according to Kasia, you can use it on any fabric without doubt.
