Accessorize your head with a lovely headwrap. Use your scarp fabric and embellish how you like!

Step 1 — Sew Loops

Sew the loops as follows: Fold satin and jersey pieces in half lengthwise, right side facing in. Stitch the 65 cm long edges together, stitching 1 cm (3/8 in) from fabric edge. Press seams open. Slide one end through the fabric tube, up to the opposite end, with right fabric side facing in. Stitch ends together, 1 cm (3/8 in)

from the fabric edges, leaving a section of the seam open, for turning. Turn right side out. Sew seam opening closed. Lay loops flat on table and pull the satin loop through the jersey loop.

Step 2 — Loop Loops

Cross the loops like in the picture, so they are now connected together.

Step 3 — Sew Loops Together and Embellish

Stretch connected loops over head (or ball) and fix together with a few hand stitches. Hand sew the Swarovski embellishments on.
