---

These buttons don't fasten anything. Instead they add a sparkling highlight to any garment! These instructions are for embellishing a black pullover with statement gold buttons.

---

## Step 1 — Print and Prepare Template

Save above template to your computer and print out on paper 4 times. Glue edges together along dashed lines to get the cross shape.

---

## Step 2 — Punch Holes

Using a pencil punch holes in the template.

---

## Step 3 — Transfer Markings

Place the template on the center of the pullover front. Sprinkle flour over the template and brush the flour through the holes of the template.

---

## Step 4 — Sew Buttons

Step 3 — Transfer Markings

First lay golden buttons on the template to test the positioning. Then lay them on the marked positions on the pullover and sew them in place.

---

## Step 5 — Pants

Love the pullover you just made? And have some leftover buttons? Why not sew them on a pair of pants for a glam rock look. These buttons are sewn on 4 1/2" apart.
