

How to remake beanie into little bag 3 1/2

By: Rikamekko

<http://www.burdastyle.com/techniques/how-to-remake-beanie-into->

I liked this beanie with pretty motifs, but a bit small for me. It's sad I cannot put on this. So I came up with an idea to remake it to a bag. Then I'm always with it. Making process is quite easy. I think there're various ways to making process. This is the easiest way in my mind. At handle, I just put leather band, No inside pocket because it's a little bag. In this case, you can make it only 30~40 minutes. After I remade this bag, I found it that I strongly recommend to put interlining to inside fabric. It makes nice-looking.

Step 1 — Make inside bag

Make inside bag same size as beanie. Please don't forget to add 1cm seam allowance upper sides.

Step 2 — Put interlining

Put cut interlinning for reicforcing on two places of swaging with rivets.

Step 3 — Fold seam allowance

Fold 1cm seam allowance at upper sides.

Step 4 — Set beanie and inside bag

Put in inside bag to beanie and stick with pins. (Set external surface)

Step 5 — Sew

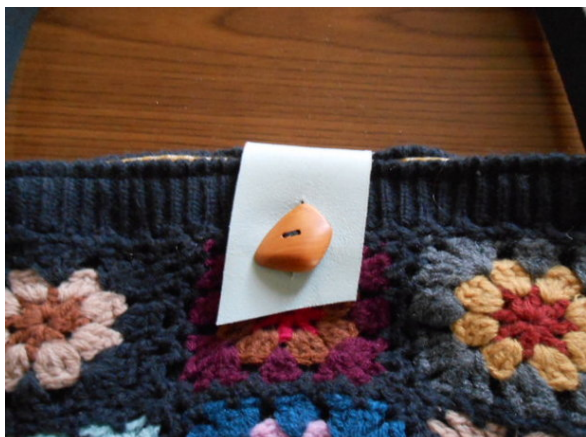

Sew edge of inside bag.

Step 6 — Make handle

Swage with metal rivets and leather band.

Step 7 — Make cover

Step 5 — Sew

Cut leather scrap as your favorite design and sew on. Cut button hole. Put button.

Step 8 — Finish

Instant remake :)
