If you want to stand out the crowd at the next baby shower or if your little one has still not managed to tire you out completely by waking up every couple of hours, this pattern is for you! A pattern for a bib, so easy to make it only takes a few steps!

Materials

Fabric remnant Bias Tape or Trim

Step 1

Cut out the bib

Step 2

Attach the trim or bias tape around the edge, first a piece on the neckline, then the rest leaving extra for the tie around the neck.

Step 3

Decorate the front with whatever suits you and the little one best. We can't wait to see pictures of the lucky babies!
