My sister commissioned a hot pink maxi skirt like Anthropologie's Lengthening Rays Skirt (which cost \$128 and is made of polyester chiffon). My version was made of real silk chiffon, cost less than \$25 to make (thanks to the awesome discount fabric store near me, which just happened to have the perfect color of hot

pink chiffon for ~ \$6 a yard) I liked it so much, I made myself one in dark teal.

Materials

silk chiffon outer, silk lining underneath, invisible zipper
