

Envelope Clutch Purse

By: InventDresscode

<http://www.burdastyle.com/projects/envelope-clutch-purse>

Self-made pattern for a medium size envelope clutch. There's no lining because this was designed for a simple and easy to follow youtube tutorial, if you wish to add lining you can but I didn't make separate pattern pieces. I would just cut out an extra top fold and 2 more pure backs in the lining material of your choice. This can also be used for a formal clutch if you choose a different fabric such as a satin, that's why i also listed it as formal. Youtube tutorial: <http://www.youtube.com/watch?v=DjXkVmDbSEY>

Materials

You need -self fabric (could probably fit in half a meter but I had a lot extra when i did this) -a really sturdy lining -contrast thread -contrast fabric for flower detail (not included in pattern but i linked a video in the youtube description)

Step 1 — YOUTUBE TUTORIAL

Watch it to see how to make this and message me there with ANY questions:
