Presents:

An Internet Video Series

Singer Quantum Stylist 9960

- * Selecting Built in Font Options
- * How to Use Letters & Numbers
 - * How to Insert a Pattern

Written & Produced by: Roxanne Blanc

This is Part 5 in my Video Series on Learning How to Sew featuring the Singer Quantum Stylist 9960. In this segment I show you how to use the machines built in letter stitching. I've stitched out each font in upper and lower case letters & numbers for each font. I have photos on my blog. I also show how to add and edit letters, add a motif and how the machine stitches out a sample. I also give an explanation as to why the machine suggests using foot "B".
