I love experimenting with materials, styles and shapes. :) Fashion is my Art & Craft. A review on taffeta from Alero Collections. This taffeta is a medium weight fabric (polyester) that has a smooth silky two-tone (also known as the chameleon fabric) subtle crisp feel. It's absolutely beautiful because of the way it reflects light. Lovely on the skin. Suitable for a wide range of sewing projects such as fashion clothing, fashion accessories, lingerie, home interior decor and multipurpose use. Follow on <http://www.ebay.com/usr/alerocollections>.
